

Child Psychiatry Access Network (CPAN)

CPAN is a telephone consultative service, available statewide for providers caring for patients ages 3-23 with mental health needs. A partnership of the University of North Texas Health Science Center & JPS Health Network provides services for Tarrant County and the eight surrounding counties.

Calling CPAN at **1-888-901-2726** is free. Responses will be made in under five minutes.

How CPAN works

You have a patient, ages 3-23, with mental health concerns. You have questions before, during, or after a visit.

Call 1-800-901-2726.

Press **1** for North and north east regions, then press **1** for UNT Health Science Center / JPS Health Network.

Referrals and Resources

Access therapists, psychiatrists, or PHP/IOP based on patient location and insurance.

Psychiatric Consultation

Speak with a child psychiatrist/APP and discuss diagnosis, treatment, medications, etc.
